TEACHERS' TRAINING SATISFACTION SURVEY

Between 15 and 35 teachers attended the ordinary training every year. Some of them attended the courses for more than one year, others just for one.

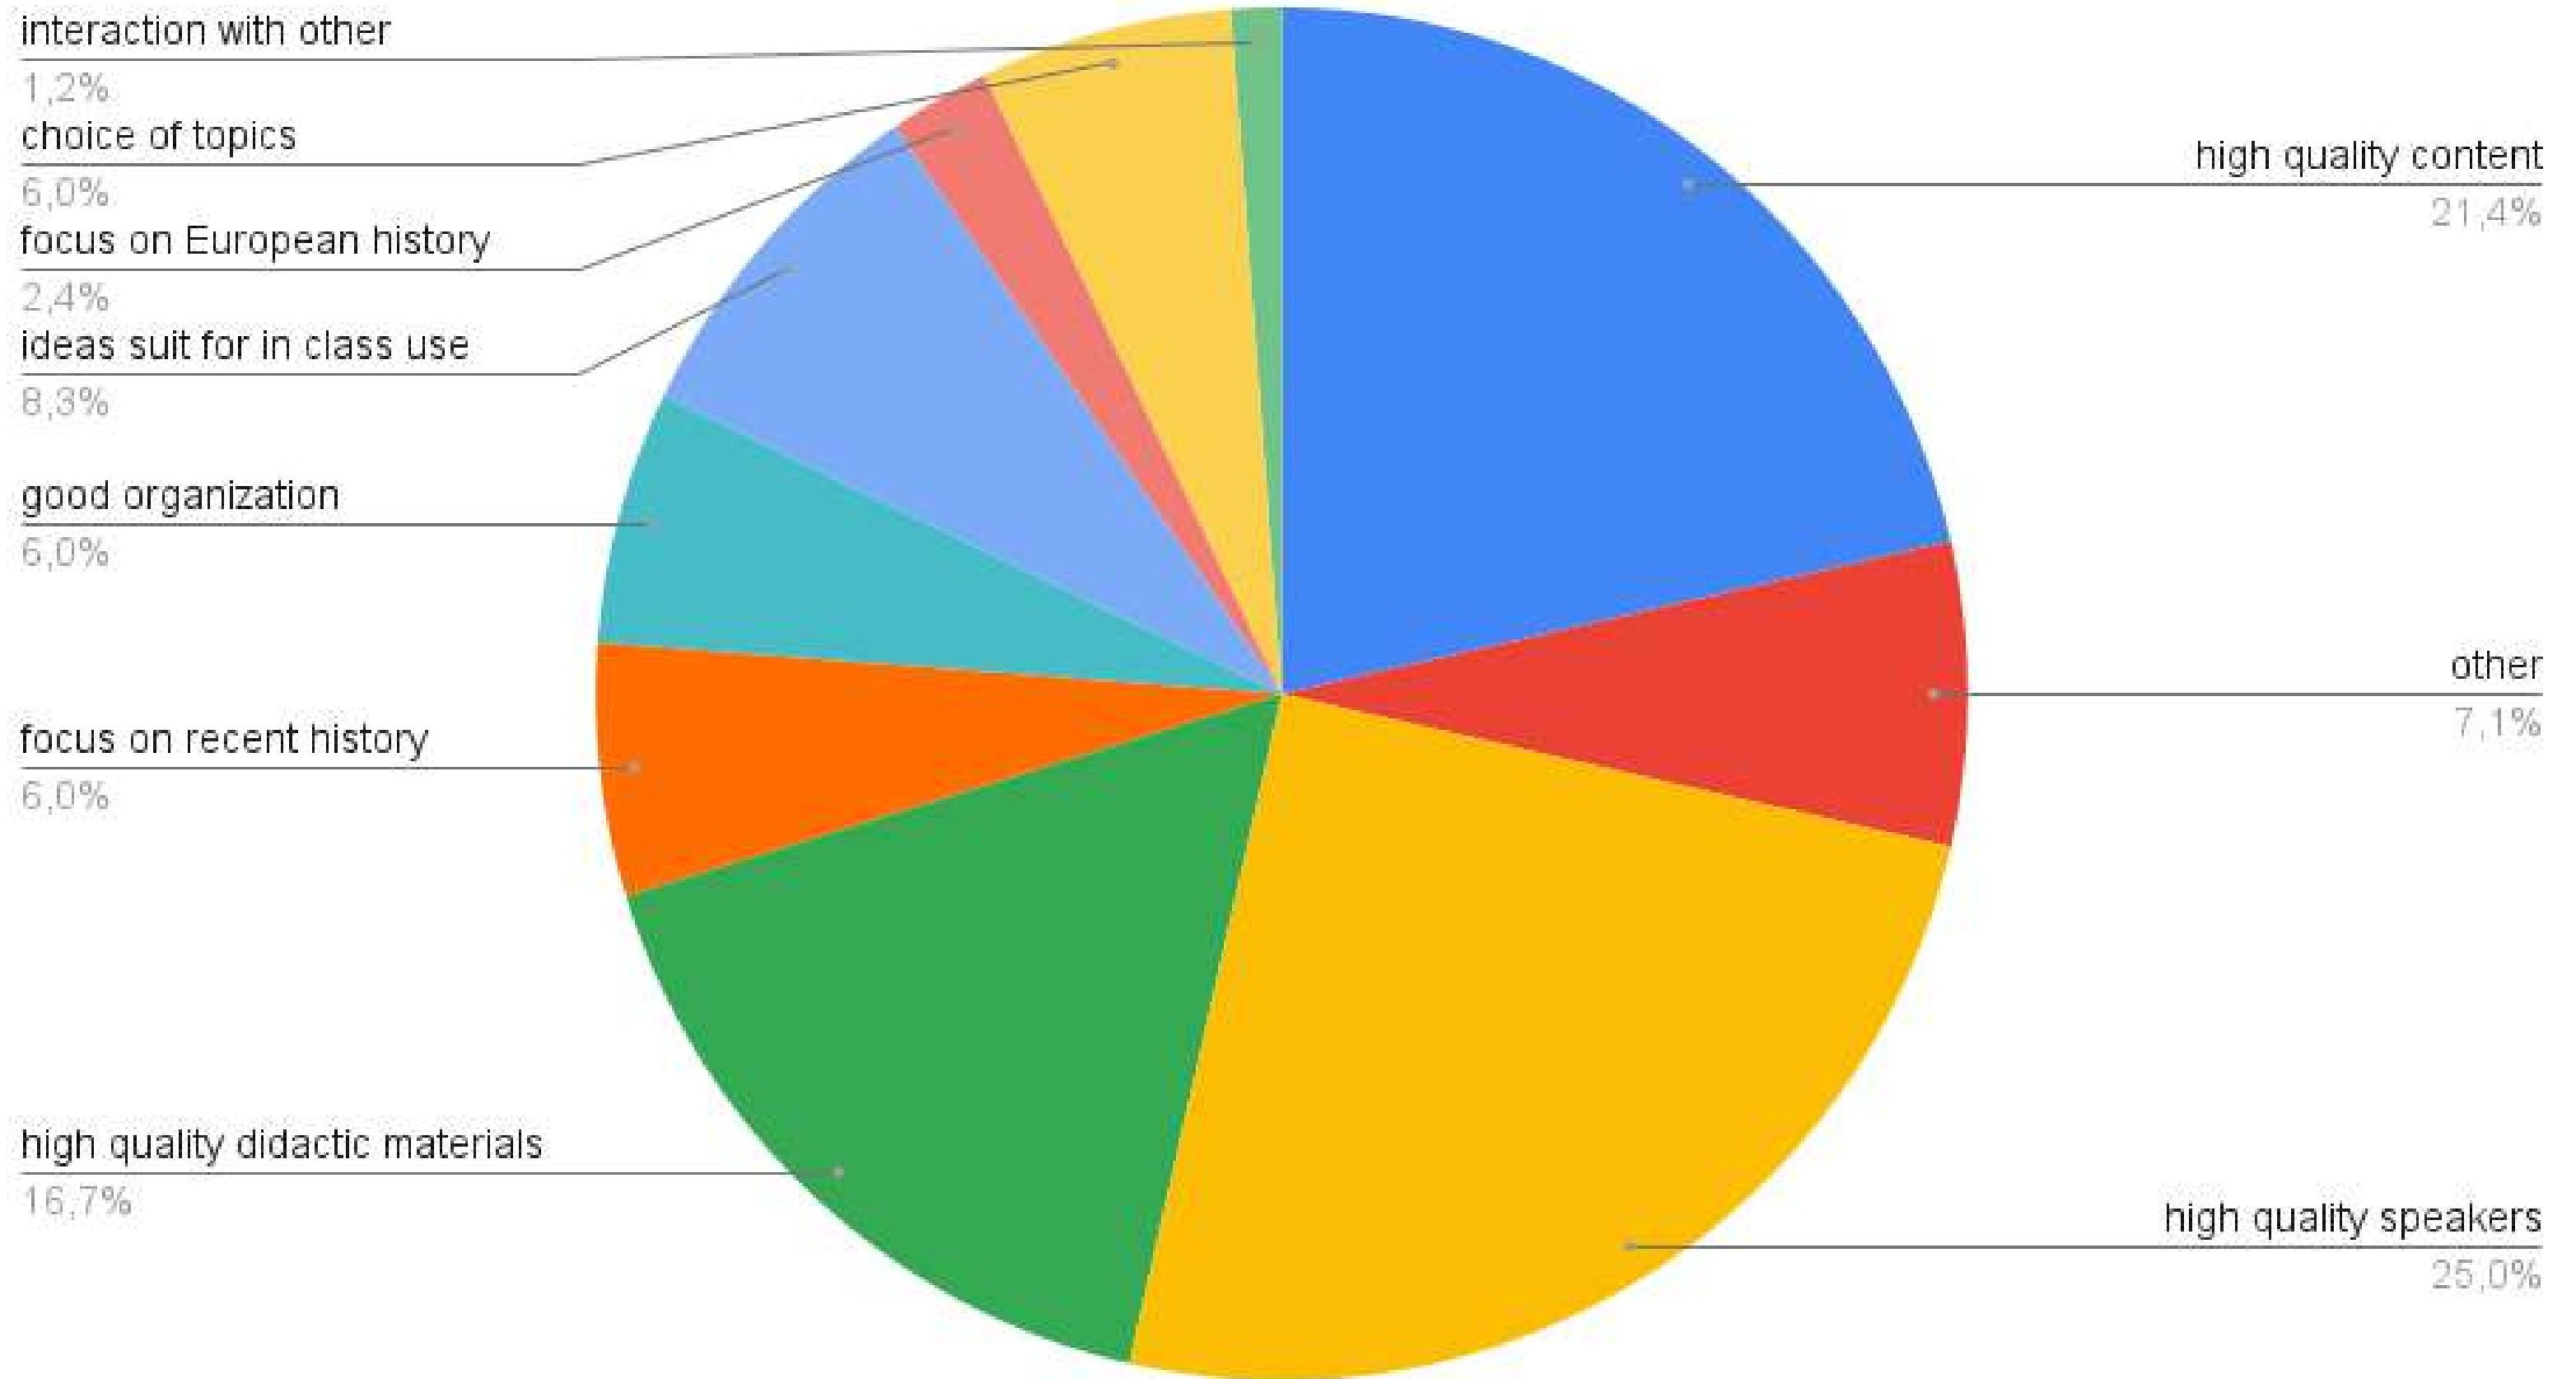

The satisfaction of the trainees was monitored during the courses and at the end of the three years.

At the end of the third year, we asked the participants via e-mail to fill in a global satisfaction survey. 35 of them replied.

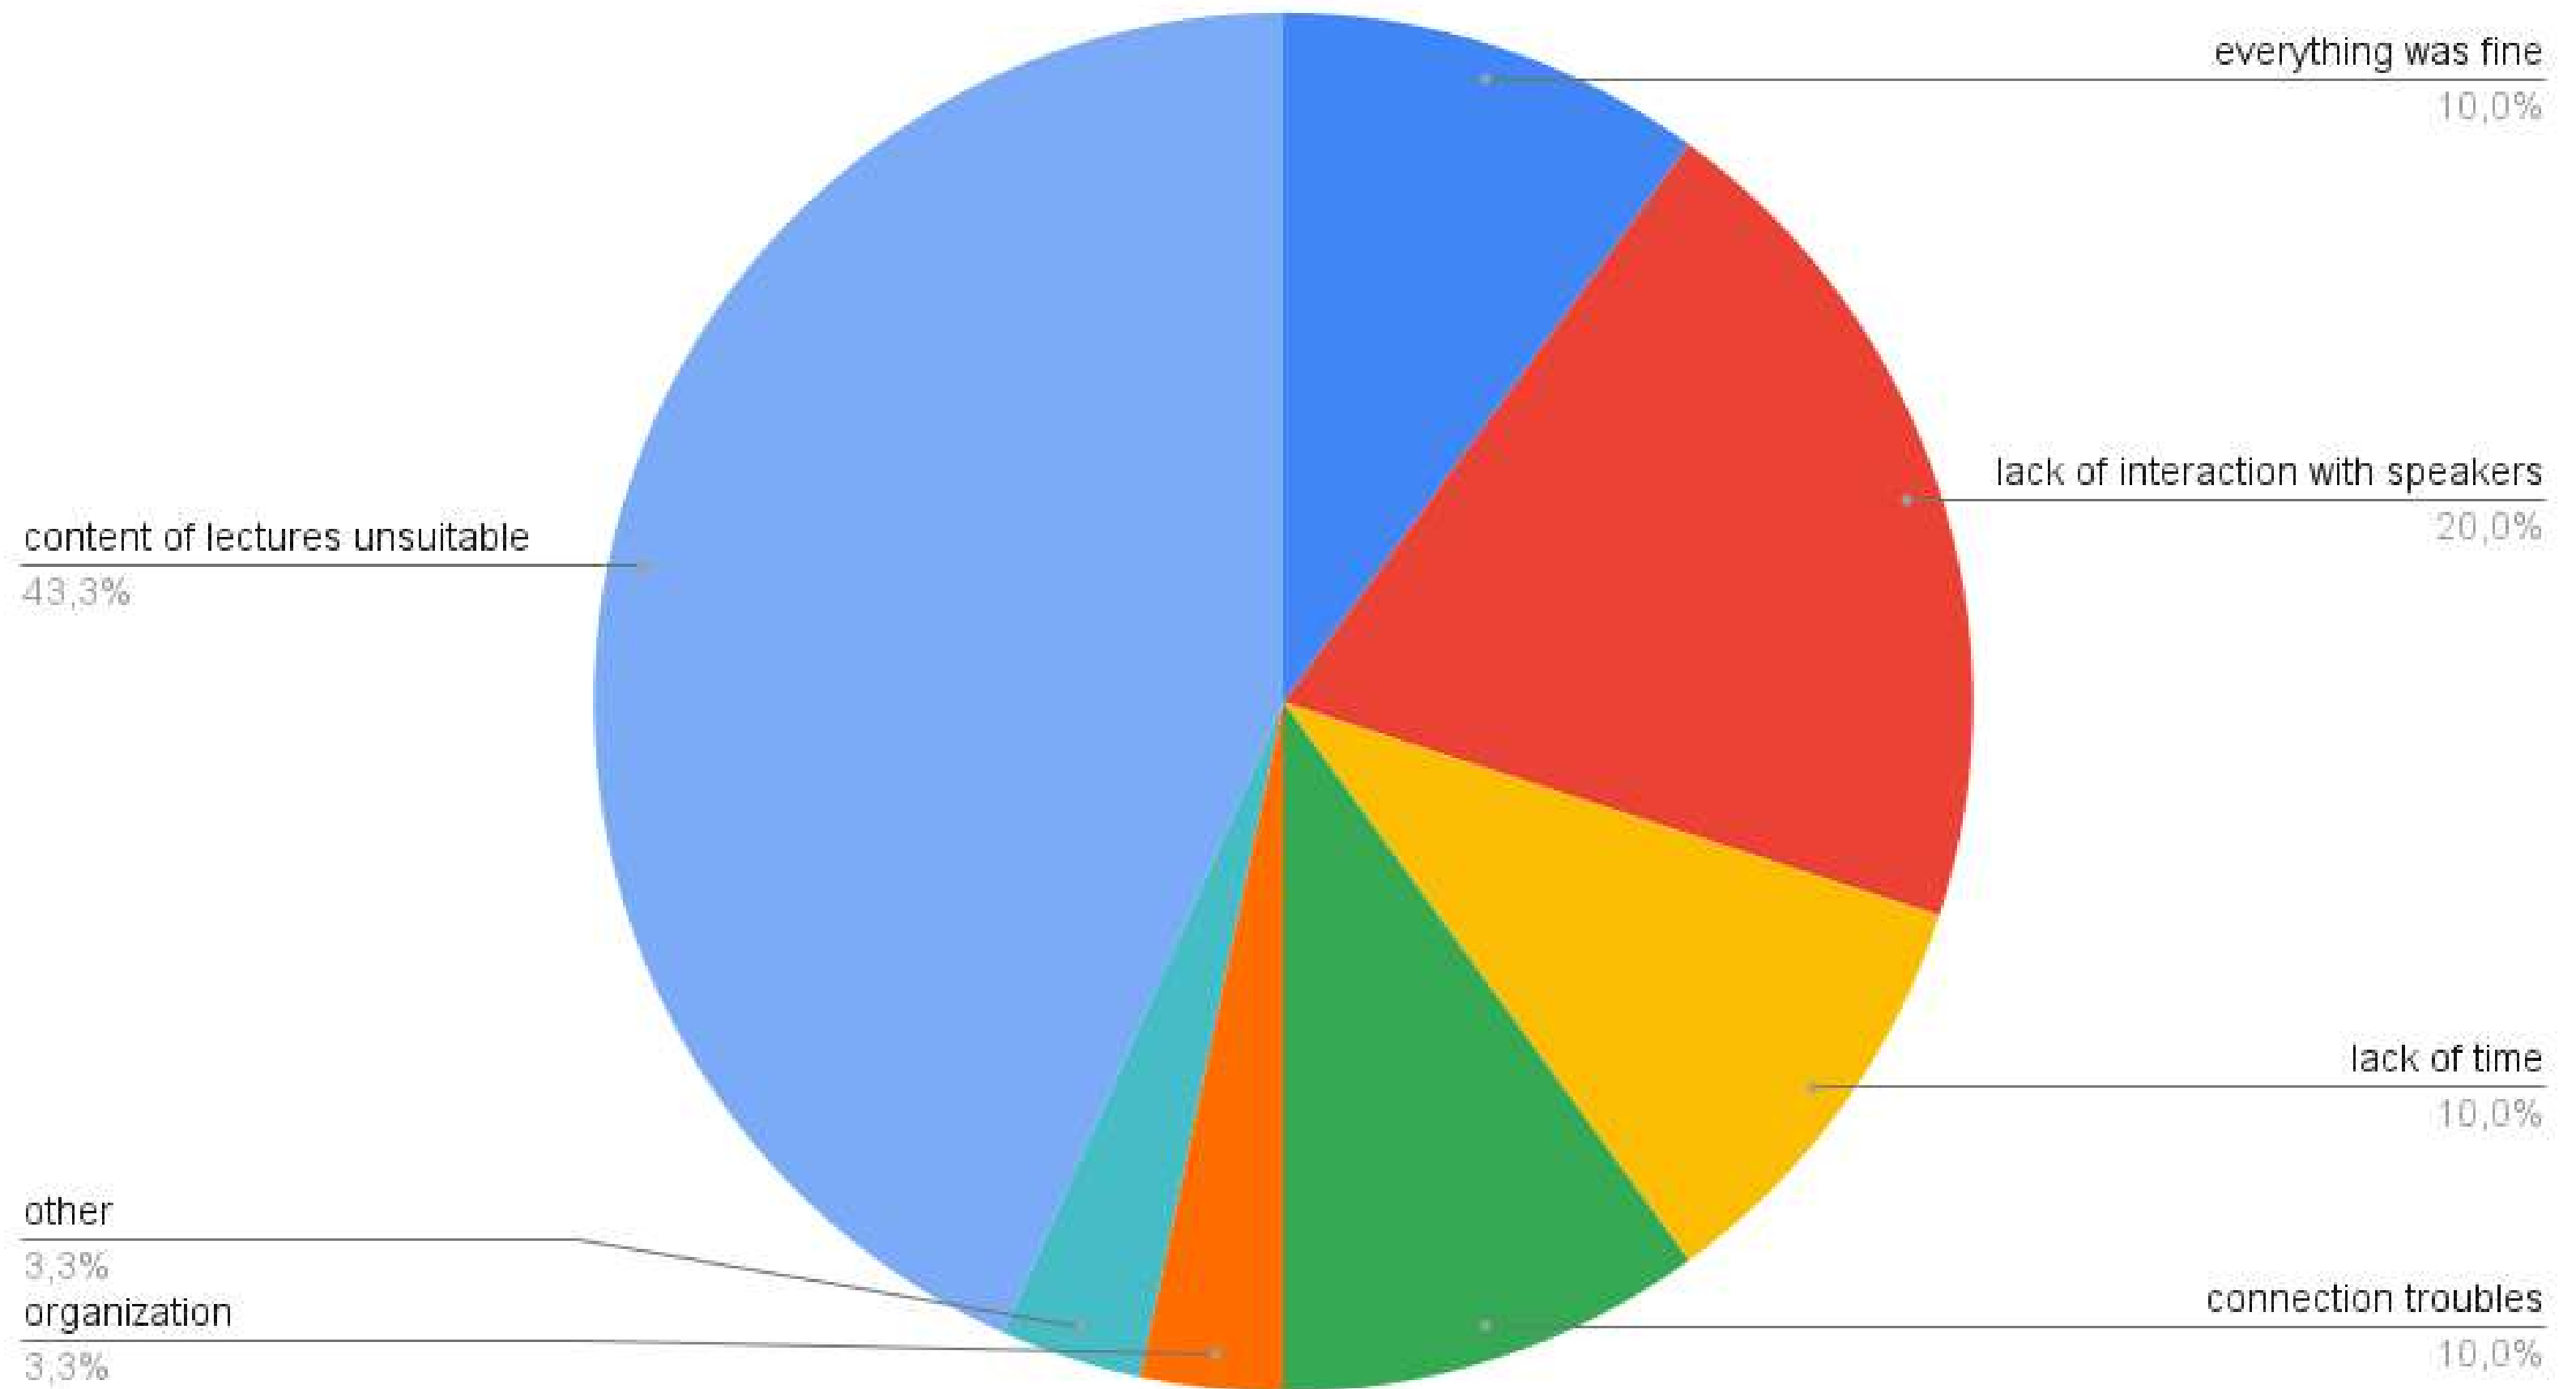

***20 other teachers have filled in a questionnaire referring to the special edition of the last training.**

Please, write three points of strenght of the training you attended

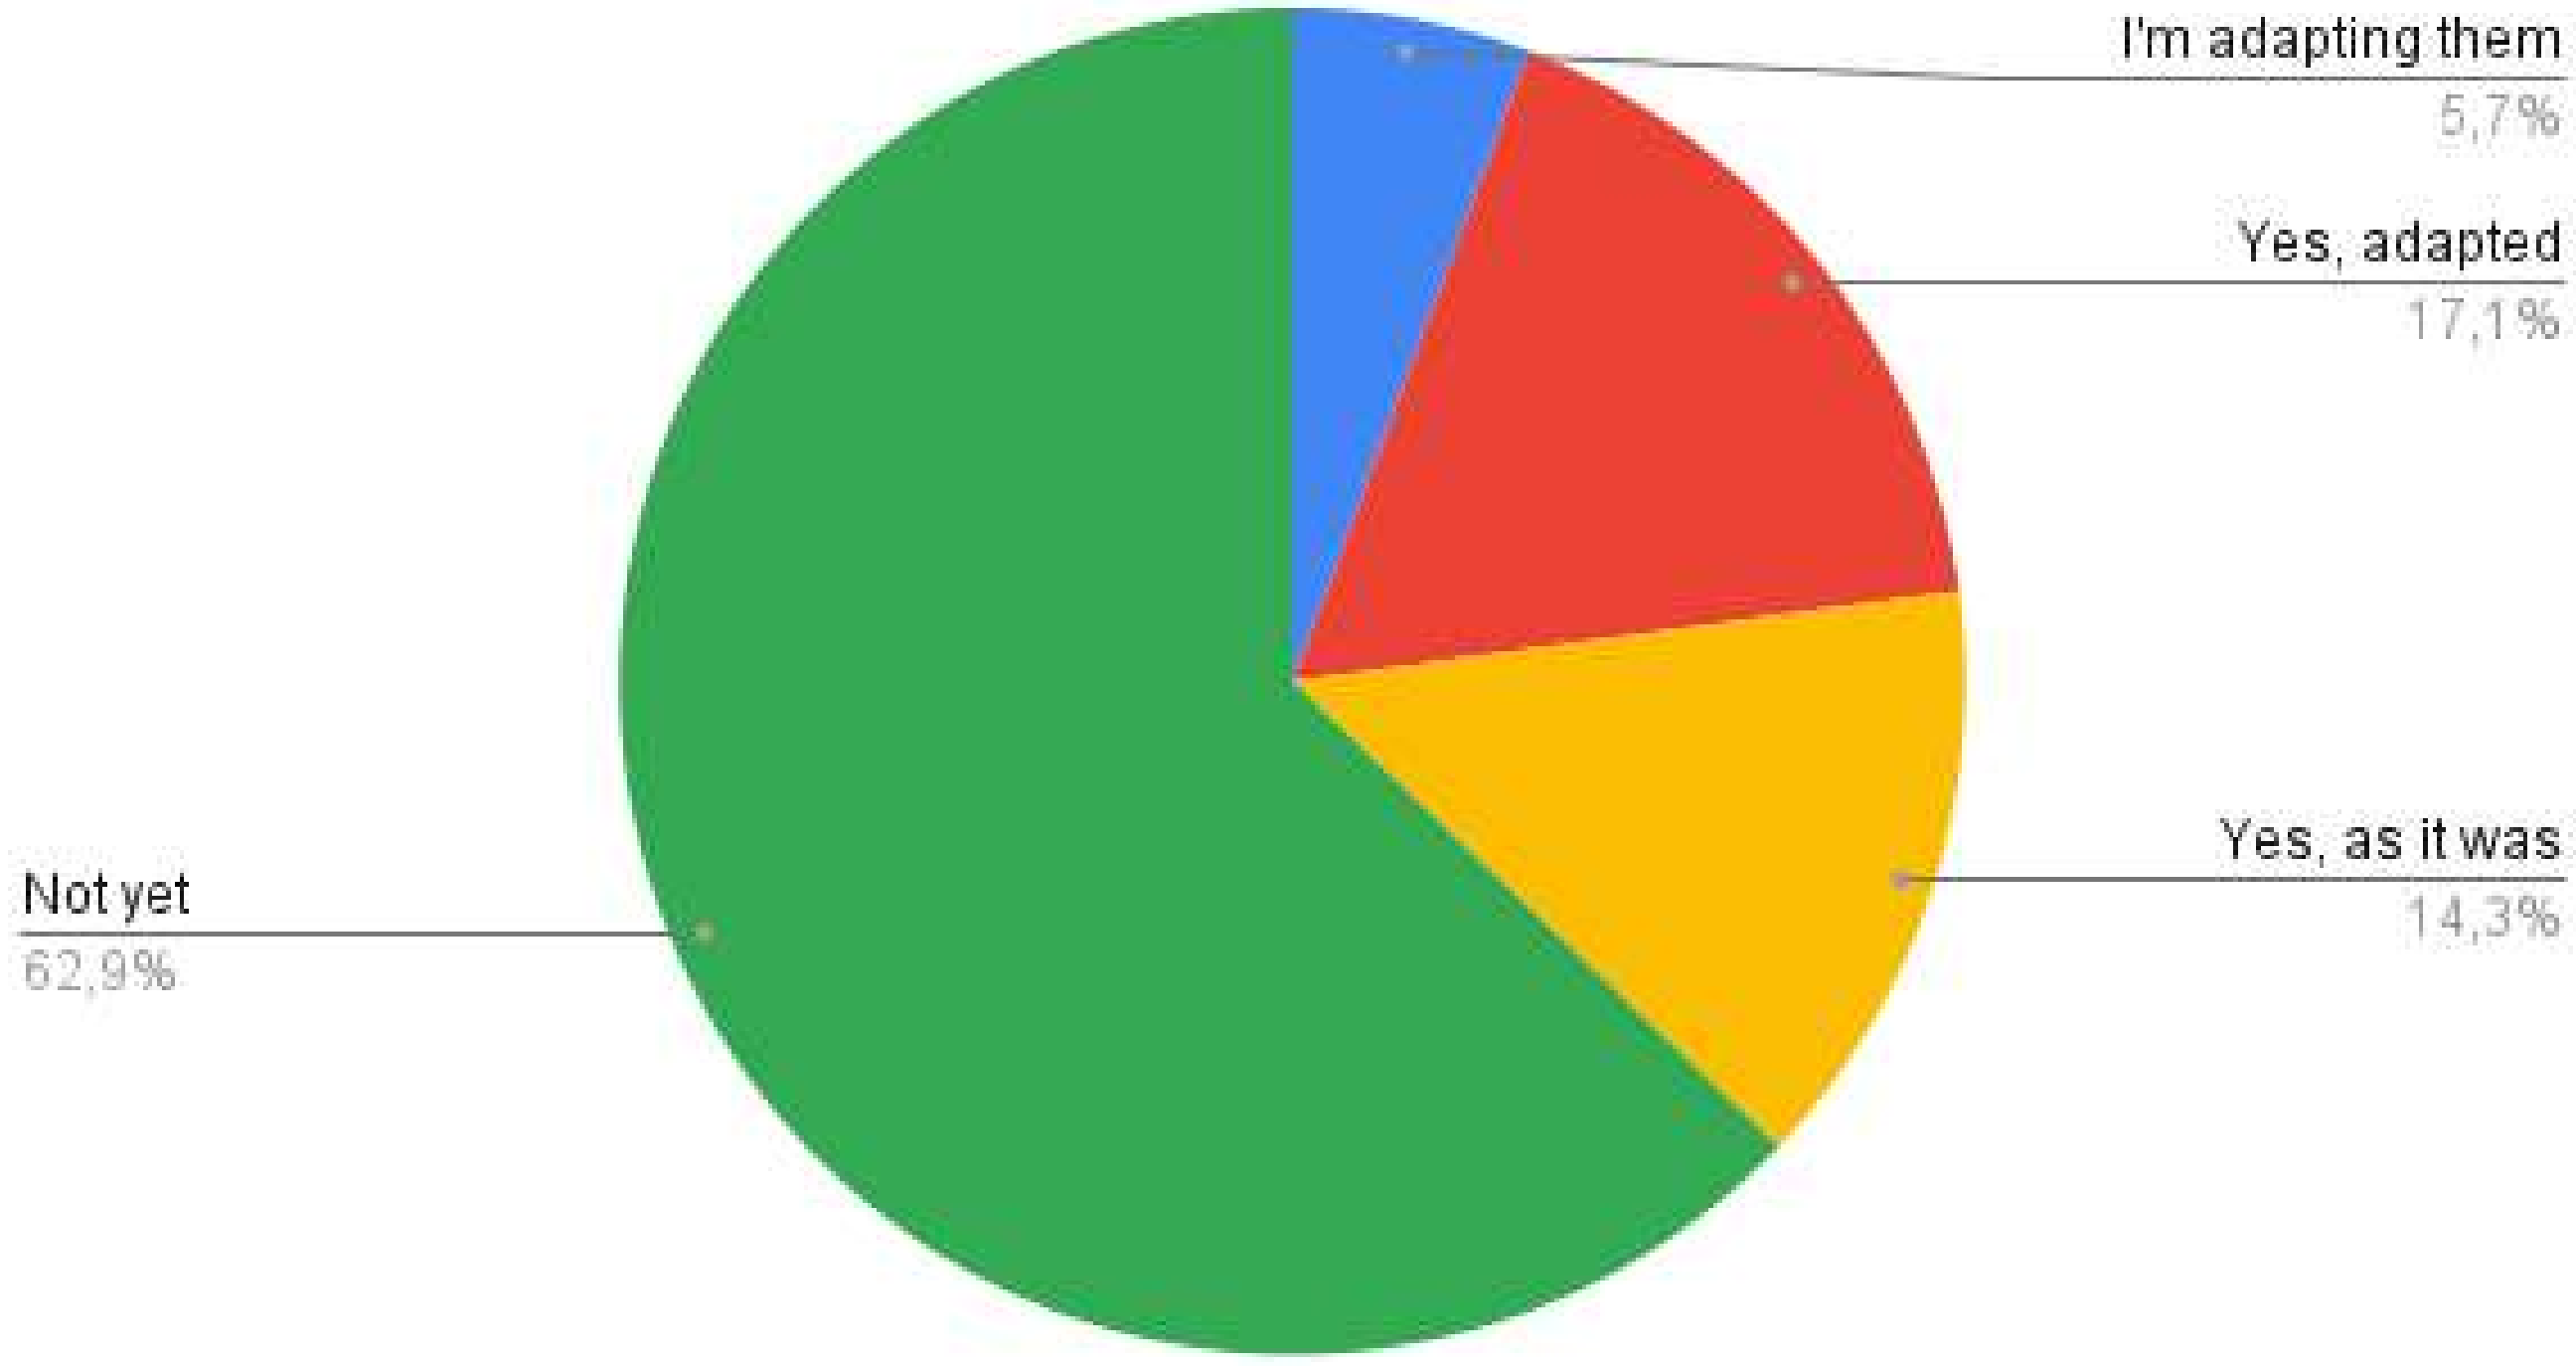

Please, write three weaknesses of the training you attended

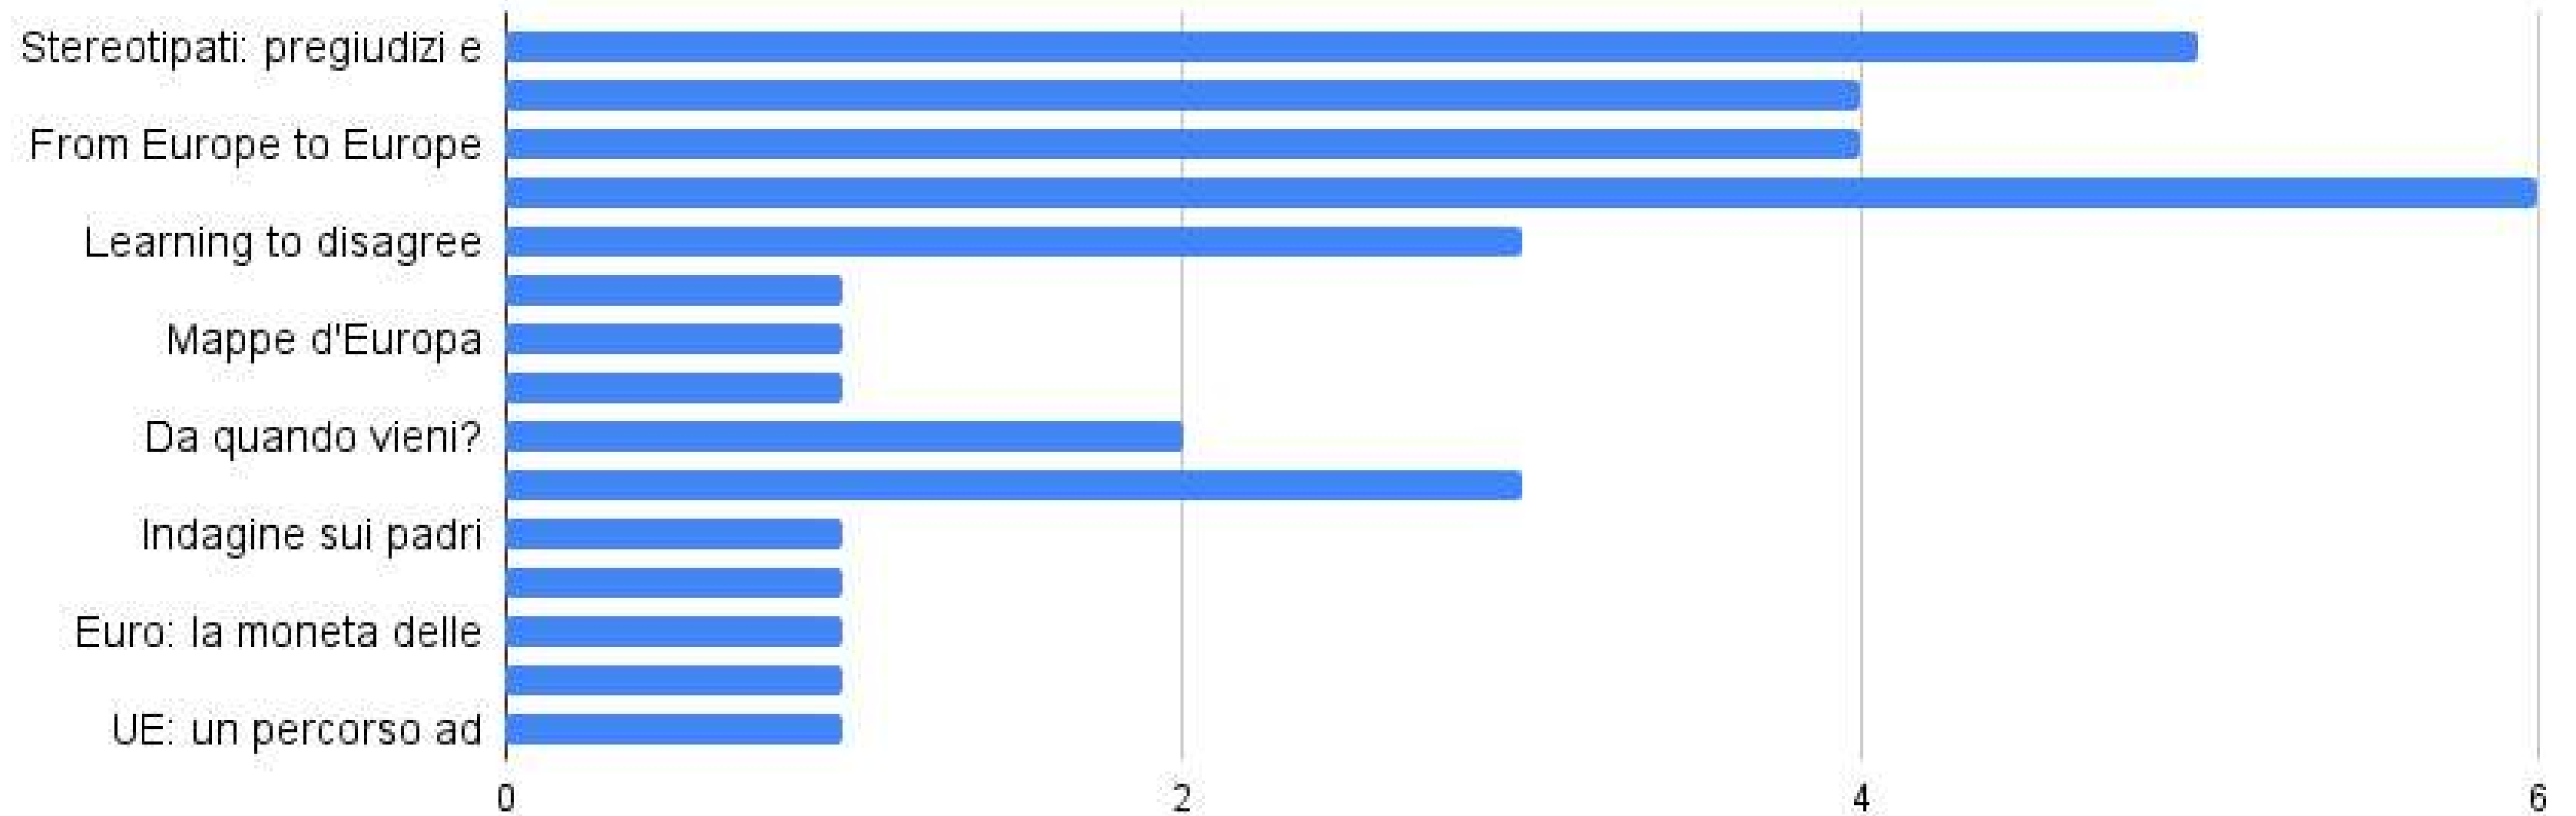

*Please note that the questionnaire was filled in before the preparation to the final event. After the questionnaire, teachers continued to use the materials on the website and adapted them, or designed their own activity based on the models available.

Have you used any didactic material available on the website?

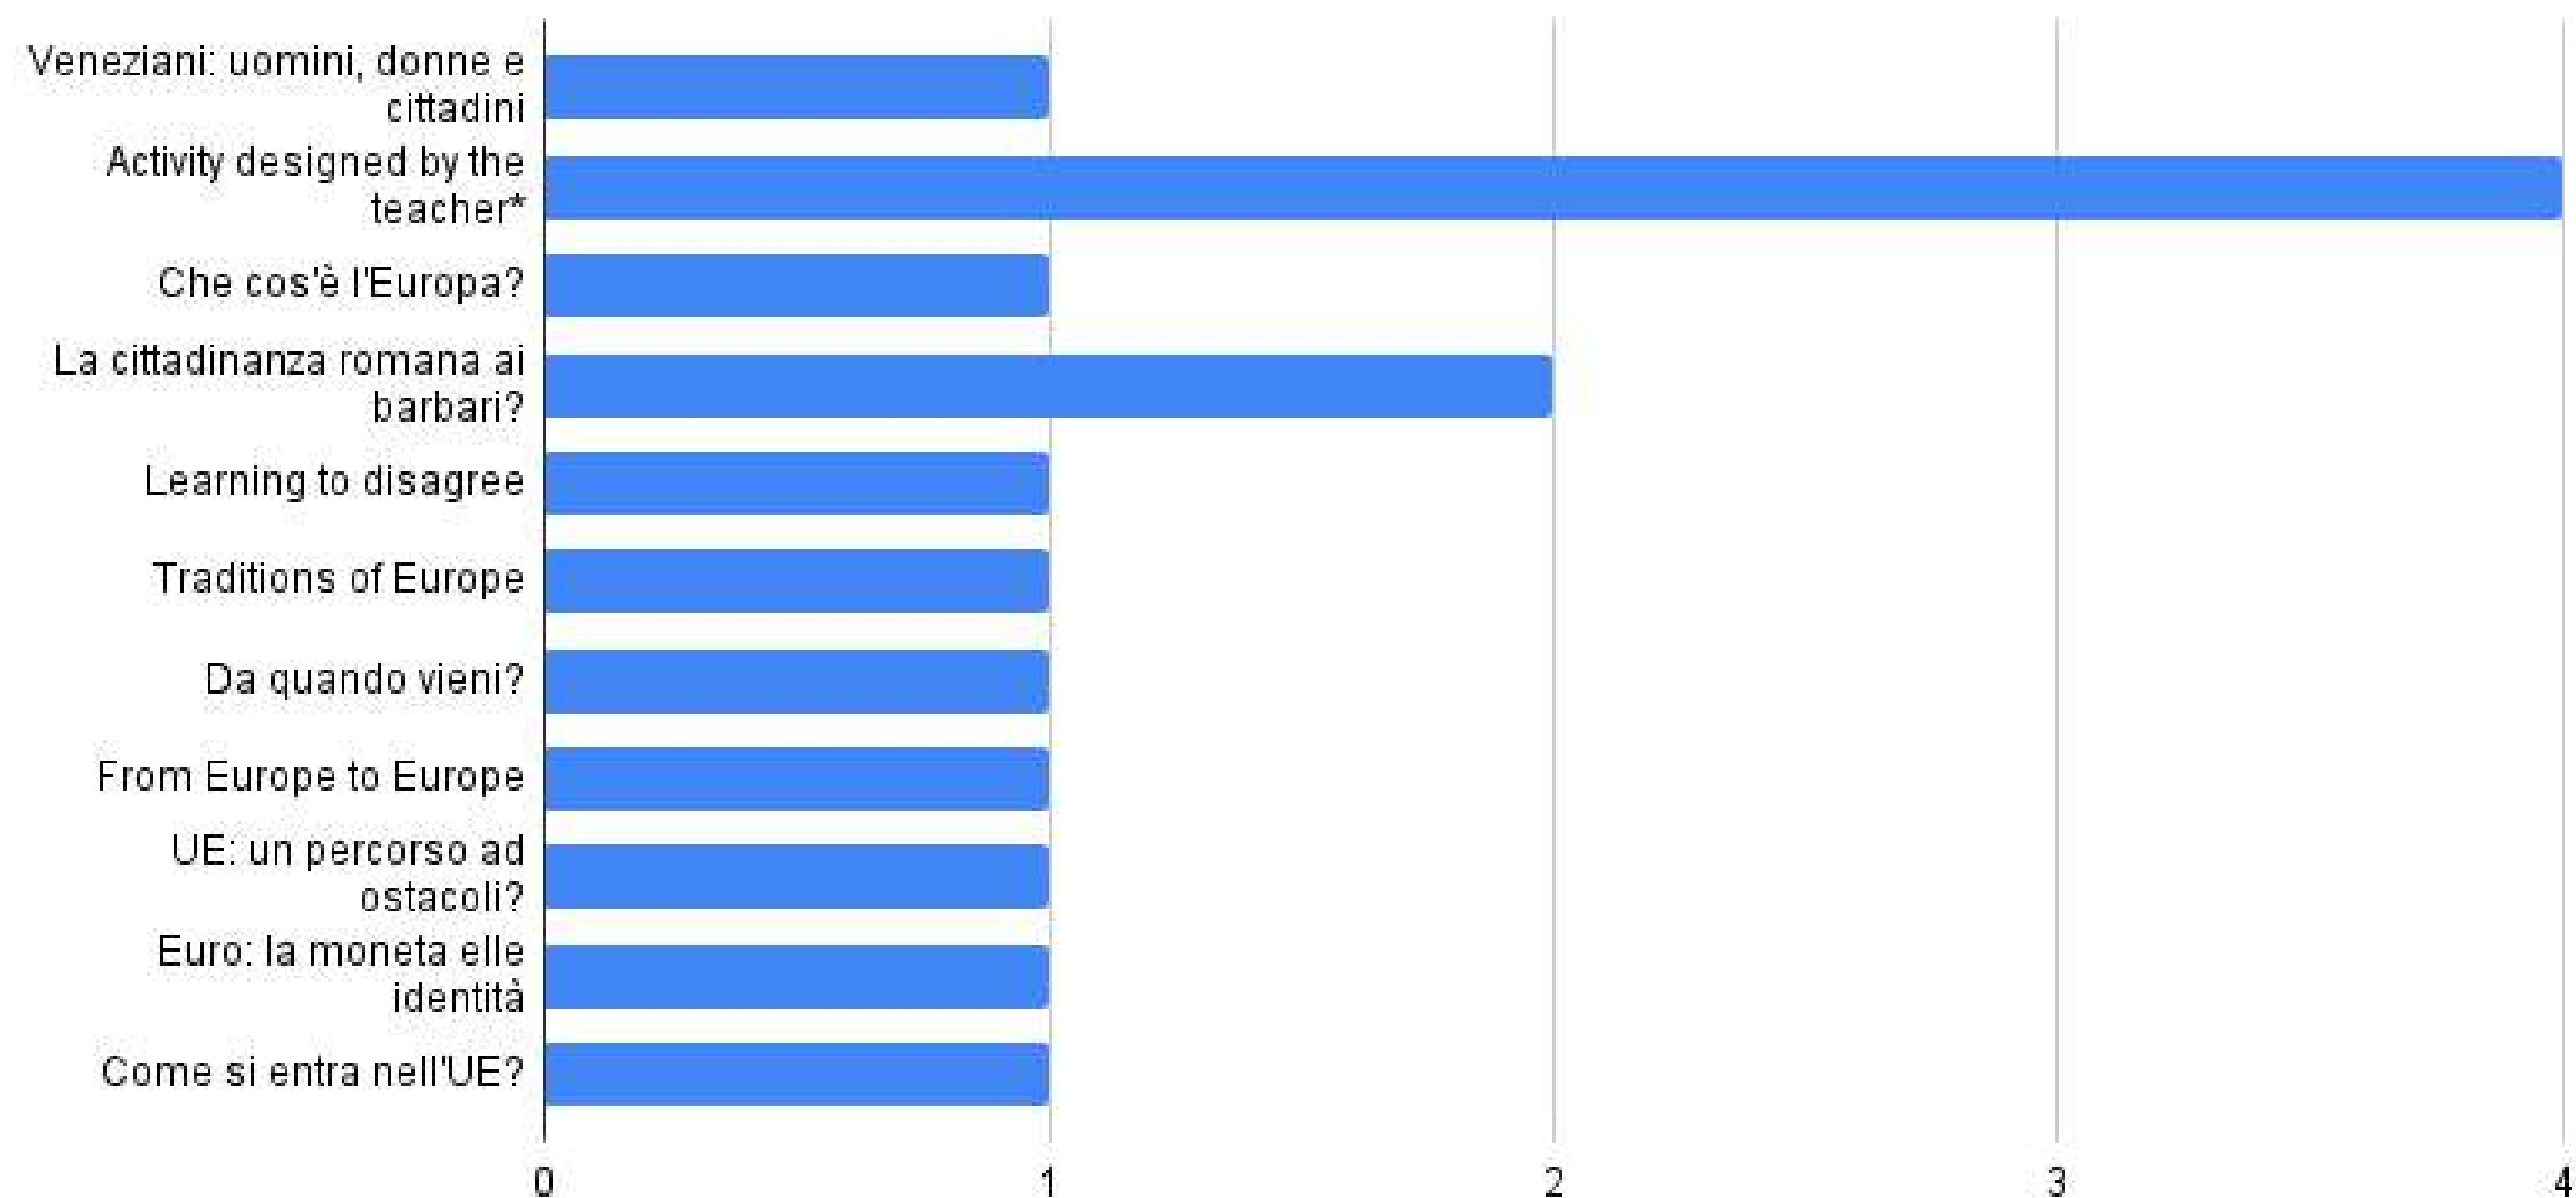

If not (yet), which one(s) would you choose

If not (yet), which one(s) would you choose

Actual use of didactic materials by teachers during the final period of experimentation (after the questionnaire)

Actual use of didactic materials by teachers who continued the experimentation to take part in the final
